Electronic Communications Weekly Update Meeting

Attending: D.Fisk, N.Palmerino, C.Graunke, W.Levenston, J.Bails, S.Palen, E.Long

Meeting called to order by D.Fisk.

Project Updates:

- Area I – ECC Admin vacancy
- Area II - No Update
- Area III – C.Graunke, reported that F-7 and calendar are okay, trouble with website login
- Area IV – W.Levenston nothing to report
- Area VII - E.Long continues to work on all duties assigned
- Area VIII – S.Palen continues to complete all duties as assigned and train as needed
- Area IX – ECC Admin vacancy
- Area X – N.Palmerino working on a membership campaign, calendar is okay but will need help with the website

D.Fisk spoke briefly about the social media platforms. Confirmed that everyone has access to specific facebook accounts. There is only one twitter account. To use twitter you need to have a personal account and then you can access twitter and like and repost.

Confirmation that everyone has editor access to FEDHub. Continue to access the account and post and comment. It is important to get our name out there.

The future will revolve around helping to train chapters to update their membership database. It is not our responsibility to do it, just to create awareness and help train.

D.Fisk will ask Chair C.Bails to supply guidance. We can supply spreadsheets to make the task of updating member information easier, but a privacy statement (NDA) of some sort to make sure anyone with access to data the ECC distributes is aware of proper use of the data.

Adjourn at 4:55 pm

D.Fisk
